## PRODUCT DATA SHEET

## FRICTION MATERIAL COMPOSITE: D9098-1

PRODUCT DESCRIPTION: D9098-1 is a very flexible woven lining containing brass wire, providing a high coefficient. Its good flexibility allows it to conform easily to small diameters.

APPLICATION: D9098-1 is recommended for light duty service in brake applications. D9098-1 may be coned to a radius 10X the lining width for use in cone clutch service.

| PHYSICAL PROPERTIES |  |  |

The information and data supplied in this data sheet are believed to be accurate and reliable, and were obtained from standard laboratory tests. Since actual conditions of use are not within the control of Ferotec Friction, it is suggested that D9098-1 be thoroughly tested and its suitability for use be determined before final acceptance.
